

ORDINANCE NO. 988

AN ORDINANCE AMENDING ORDINANCE NO. 781 OF
THE CITY OF LODI AND PROVIDING A NEW RATE
SCHEDULE FOR CUSTOMERS WITH DEMANDS OF
1000 KW OR GREATER

The City Council of the City of Lodi does ordain as follows:

Section 1. Section 8 of Ordinance No. 781 of the City of Lodi is hereby repealed and a new Section 8 is hereby enacted to read in full as follows:

Section 8. SCHEDULE S-I - GENERAL SERVICE - DEMAND METERED - DEMAND OF 1,000 KW OR LESS is applicable to alternating current lighting and, at the customer's option, to alternating current for heating, cooking, power or any combination thereof (either single phase or polyphase) alone or combined with lighting, provided all polyphase power service to any customer on the same premises shall be supplied through one meter. Service to each of two or more separate areas, but not in the same building, and which do not overlap within the same premises may be individually metered.

(a) RATE	<u>Per Meter</u> <u>Per Month</u>
----------	--------------------------------------

Energy Charge:

First 6,000 kwhr, per kwhr	\$0.02375
For all excess over 6,000 kwhr per month:	
First 50 kwhr per kw of billing demand,	
per kwhr..	0.02
Next 150 kwhr per kw of billing demand:	
First 100,000 kwhr, per kwhr.	0.0115
Balance, per kwhr..	0.0081
Next 100 kwhr per kw of billing demand,	
per kwhr..	0.0081
All excess, per kwhr.	0.0057

Minimum Charge, per month:

\$142.50 but not less than 80¢ per kw of
billing demand

(b) SPECIAL CONDITIONS

(i) MAXIMUM DEMAND: The maximum demand in any month will be the maximum average power taken during any 15-minute interval in the month. However, when the recorded monthly maximum demand has exceeded 400 kw for three consecutive months and thereafter until it has fallen below 300 kw for twelve consecutive months, a 30-minute interval will be used; provided, that in cases where the use of energy is intermittent or subject to violent fluctuations, a 5-minute interval may be used. A thermal type of demand meter which does not reset after a definite time interval may be used.

(ii) BILLING DEMAND: The billing demand to be used in computing charges under the above schedule will be the mean of the actual maximum demand as determined under (i) for the current month and the highest such demand occurring in the year ending with the current month.

(iii) VOLTAGE: Service on this schedule will be supplied at the secondary voltage available or, at the option of the customer, at the primary voltage available. Where secondary voltage is desired and poly-phase power is to be combined with single-phase, a 4-wire service will be supplied.

(iv) PRIMARY VOLTAGE DISCOUNT: When delivery hereunder is made at the same voltage as that of the line from which the service is supplied, a discount of 3% will be allowed, provided, however, the City is not required to supply service at a particular line voltage where it has (or will install) ample facilities for supplying at another voltage equally or better suited to the customer's electrical requirements. The City of Lodi retains the right to change its line voltage at any time, after reasonable advance notice to any customer receiving a discount hereunder and affected by such change, and such customer then has the option to change his system

so as to receive service at the new line voltage or to accept service (without voltage discount) through transformers to be supplied by the City of Lodi.

(v) POWER FACTOR: When the billing demand has exceeded 400 kw for three consecutive months and thereafter until it has fallen below 300 kw for twelve consecutive months, bills will be adjusted for weighted monthly average power factor as follows:

The total charge (except the minimum charge) for any month as computed on the above rates will be decreased or increased, respectively, by .01% for each 1% that the average power factor of customer's load in that month was greater or less than 85%, such average power factor to be computed (to the nearest whole per cent) from the ratio of lagging kilovolt-ampere-hours to kilowatt-hours consumed in the month, provided, however, that no power factor correction will be made for any month when customer's maximum demand was less than 10% of the highest such demand in the preceding eleven months.

Section 2. Section 9 of Ordinance No. 781 of the City of Lodi is hereby repealed and a new Section 9 is hereby enacted to read in full as follows :

Section 9. SCHEDULE S-II - GENERAL SERVICE - DEMAND METERED - DEMAND OF 1,000 KW OR MORE is applicable to polyphase alternating current service provided all power service to any customer on the same premises shall be supplied through one meter. Service to each of two or more separate areas, but not in the same building, and which do not overlap within the same premises may be individually metered.

(a) RATE	Per Meter Per Month
Demand Charge:	
First 1,000 kw of billing demand.. .. .	\$1,500.00
Next 2, 500 kw of billing demand per kw..	1.00
Over 3,500 kw of billing demand per kw..	.95

Energy Charge (in addition to the Demand Charge):

First 100 kwhr per kw of billing demand, per kwhr0115
Next 200 kwhr per kw of billing demand, per kwhr..0070
Next 100 kwhr per kw of billing demand, per kwhr..0061
All excess, per kwhr..0052

Minimum Charge:

The Demand Charge constitutes the
minimum monthly charge

(b) SPECIAL CONDITIONS

(i) MAXIMUM DEMAND: The maximum demand in any month will be the maximum average power taken during any 30-minute interval in the month, provided, that in cases where the use of energy is intermittent or subject to violent fluctuations, either a 5-minute or a 15-minute interval may be used.

(ii) BILLING DEMAND: The billing demand to be used in computing charges will be the mean of the actual maximum demand as determined under Special Condition (i) above for the current month and the highest such demand occurring in the year ending with the current month, but not less than 1,000 kw.

(iii) OFF-PEAK DEMAND: Any customer may, upon request, for billing purposes, have maximum demands ignored which occur between 10:30 P. M. and 6:30 A. M. of the following day and on Sundays and the following holidays: New Year's Day, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Veterans' Day, Thanksgiving Day and Christmas Day, as said days are specified in Public Law 90-363 (U. S. C. A. Section 6103).

(iv) VOLTAGE DISCOUNT: (1) When delivery hereunder is made at the same voltage as that of the line from which the service is supplied, or (2) when sufficient capacity is not available in distribution facilities existing in the area to supply customer's requirements and the

City has elected to supply service from a transmission line for its operating convenience by means of City-owned transformers on the customer's property, a discount of 4% will be allowed on the above charges, including the minimum charge, provided, however, the City is not required to supply service at a non-standard voltage. When service is supplied directly without transformation from a transmission line of 60 kv or higher, a discount of 5% will be allowed. The City retains the right to change its line voltage at any time, after reasonable advance notice to any customer receiving a discount hereunder and affected by such change, and such customer then has the option to change his system so as to receive service at the new line voltage or to accept service (without voltage discount) through transformers to be supplied by the City of Lodi.

(v) POWER FACTOR: The total charge (except the minimum charge) for any month as computed on the above rates will be decreased or increased, respectively, by 0.1% for each 1% that the average power factor of customer's load in the month was greater or less than 85%, such average power factor to be computed (to the nearest whole percent) from the ratio of lagging kilovolt ampere hours to kilowatt hours consumed in the month.

Section 3. EFFECTIVE DATE: This Ordinance shall be published one time in the "Lodi News Sentinel," a daily newspaper of general circulation printed and published in the City of Lodi, and shall be in force and take effect with respect to all electric bills for service furnished on and after December 1, 1972.

Approved this 1st day of November, 1972

EZRA M. EHRHARDT, Mayor

Attest: 
Jessie L. Bennett
City Clerk

State of California

County of San Joaquin, ss.

I, Bessie L. Bennett, City Clerk of the City of Lodi, do hereby certify that the foregoing Ordinance No. 988 was introduced at an adjourned regular meeting of the City Council of the City of Lodi held October 25, 1972, and was thereafter passed, adopted and ordered to print at a regular meeting of said Council held November 1, 1972, by the following vote:

Ayes: Councilmen - HUGHES, KATNICH, PINKERTON,
SCHAFER and EHRHARDT

Noes: Councilmen - None

Absent: Councilmen - None

I further certify that Ordinance No. 988 was approved and signed by the Mayor on the date of its passage and that the same has been published pursuant to law.

BESSIE L. BENNETT
City Clerk

Section 4. ~~Effective date:~~ This ordinance shall be published one time in the "Lodi News-Sentinel," a daily newspaper of general circulation printed and published in the City of Lodi, and shall be in force and take effect with respect to all ~~electric bills for service furntshed~~ on and after December 1, 1972.

Approved this 1st day of November, 1972

EZRA M. EHRHARDT, Mayor

Attest: Bessie L. Bennett
